

INDEX TO VOLUME 133

Alphabetical Table of Contents of Authors

- ARCESE, PETER. See JAMES N. M. SMITH
- BAKER, ALLAN J. See ALEJANDRO LYNCH
- BELL, GRAHAM. A comparative method, 553
- BERGLUND, ANDERS, GUNILLA ROSENQVIST, and INGRID SVENSSON. Reproductive success of females limited by males in two pipefish species, 506
- BOOMSMA, J. J. Sex-investment ratios in ants: has female bias been systematically overestimated? 517
- BRADSHAW, WILLIAM E., and CHRISTINA M. HOLZAPFEL. Life-historical consequences of density-dependent selection in the pitcher-plant mosquito, *Wyeomyia smithii*, 869
- BROWN, JOEL S. Coexistence on a seasonal resource, 168
- BURGMAN, MARK A. The habitat volumes of scarce and ubiquitous plants: a test of the model of environmental control, 228
- CARLSON, ALLAN. Courtship feeding and clutch size in red-backed shrikes (*Lanius collurio*), 454
- CASE, TED J. The variances of island extinction rates, 741
- CHAPIN, F. STUART, III. The cost of tundra plant structures: evaluation of concepts and currencies, 1
- COHEN, DAN. See YOH IWASA
- COHEN, JOEL E., and CHARLES M. NEWMAN. Host-parasite relations and random zero-sum games: the stabilizing effect of strategy diversification, 533
- COOPER, WILLIAM E., JR., and LAURIE J. VITT. Sexual dimorphism of head and body size in an iguanid lizard: paradoxical results, 729
- DEVLIN, B. See CARL D. SCHLICHTING
- DUNBRACK, ROBERT L., and MALCOLM A. RAMSAY. The evolution of viviparity in amniote vertebrates: egg retention versus egg size reduction, 138
- DU TOIT, JOHAN T., and NORMAN OWEN-SMITH. Body size, population metabolism, and habitat specialization among large African herbivores, 736
- DYER, FRED C., and THOMAS D. SEELEY. On the evolution of the dance language, 580; Erratum, 924
- EDELSTEIN-KESHET, LEAH, and MARK D. RAUSHER. The effects of inducible plant defenses on herbivore populations. 1. Mobile herbivores in continuous time, 787
- EISENBERG, JOHN F. See BRIAN K. McNAB
- ELLSTRAND, NORMAN C. See DIANE L. MARSHALL
- ETGES, WILLIAM J. Chromosomal influences on life-history variation along an altitudinal transect in *Drosophila robusta*, 83
- FAGERSTRÖM, TORBJÖRN. Anti-herbivory chemical defense in plants: a note on the concept of cost, 281
- FIELD, CHRISTOPHER B. See KIMBERLYN WILLIAMS
- FOLTZ, D. W., and P. L. SCHWAGMEYER. Sperm competition in the thirteen-lined ground squirrel: differential fertilization success under field conditions, 257
- FONTDEVILA, ANTONIO. See MAURO SANTOS
- FRANK, STEVEN A. The evolutionary dynamics of cytoplasmic male sterility, 345
- GJERSHAUG, JAN OVE, TORBJÖRN JÄRVI, and EIVIN RØSKAFT. Marriage entrapment by "solitary" mothers: a study on male deception by female pied flycatchers, 273
- GOODNIGHT, CHARLES J. Population differentiation and the correlation among traits at the population level, 888

- GRANT, B. R., and P. R. GRANT. Natural selection in a population of Darwin's finches, 377
- GRANT, P. R. See B. R. GRANT
- GRANT, VERNE. The theory of speciation trends, 604
- GREBUS, MARCELLA. See GAYLE E. MUENCHOW
- HARDER, LAWRENCE D., and JAMES D. THOMSON. Evolutionary options for maximizing pollen dispersal of animal-pollinated plants, 323
- HART, JOHN A. See TERESE B. HART
- HART, TERESE B., JOHN A. HART, and PETER G. MURPHY. Monodominant and species-rich forests of the humid tropics: causes for their co-occurrence, 613
- HARVEY, HAROLD H. See DONALD A. JACKSON
- HAUKIOJA, ERKKI, RISTO LEMMETYINEN, and MIRJA PIKKOLA. Why are twins so rare in *Homo sapiens*? 572
- HERRERA, CARLOS M. Seed dispersal by animals: a role in angiosperm diversification? 309
- HIGASHI, MASAHICO, and BERNARD C. PATTEN. Dominance of indirect causality in ecosystems, 288
- HOLZAPFEL, CHRISTINA M. See WILLIAM E. BRADSHAW
- IVES, ANTHONY R. The optimal clutch size of insects when many females oviposit per patch, 671
- IWASA, YOH, and DAN COHEN. Optimal growth schedule of a perennial plant, 480
- JACKSON, DONALD A., KEITH M. SOMERS, and HAROLD H. HARVEY. Similarity coefficients: measures of co-occurrence and association or simply measures of occurrence? 436
- JAMIESON, IAN G. Behavioral heterochrony and the evolution of birds' helping at the nest: an unselected consequence of communal breeding? 394
- JÄRVI, TORBJÖRN. See JAN OVE GJERSHAUG
- JENKINS, PETER F. See ALEJANDRO LYNCH
- KRISCHIK, VERA A. See DOUGLAS W. TALLAMY
- LAMEY, TIMOTHY C. See GEOFFREY A. PARKER
- LEMMETYINEN, RISTO. See ERKKI HAUKIOJA
- LOMOLINO, MARK V. Interpretations and comparisons of constants in the species-area relationship: an additional caution, 277
- LYNCH, ALEJANDRO, GEOFFREY M. PLUNKETT, ALLAN J. BAKER, and PETER F. JENKINS. A model of cultural evolution of chaffinch song derived with the meme concept, 634
- MANGEL, MARC. Evolution of host selection in parasitoids: does the state of the parasitoid matter? 688
- MARSHALL, DIANE L., and NORMAN C. ELLSTRAND. Regulation of mate number in fruits of wild radish, 751
- MCLAUGHLIN, ROBERT L. Search modes of birds and lizards: evidence for alternative movement patterns, 654
- MCNAB, BRIAN K., and JOHN F. EISENBERG. Brain size and its relation to the rate of metabolism in mammals, 157
- MOCK, DOUGLAS W. See GEOFFREY A. PARKER
- MONTAGUE, JEREMY R. The ecology of Hawaiian flower-breeding drosophilids. 2. Adult dispersions and reproductive ecology, 71
- MOONEY, HAROLD A. See KIMBERLYN WILLIAMS
- MUENCHOW, GAYLE E., and MARCELLA GREBUS. The evolution of dioecy from distyly: reevaluation of the hypothesis of the loss of long-tongued pollinators, 149
- MURPHY, PETER G. See TERESE B. HART
- NEWMAN, CHARLES M. See JOEL E. COHEN
- NUSSBAUM, RONALD A., and DAVID L. SCHULIZ. Coevolution of parental care and egg size, 591
- ORZACK, STEVEN HECHT, and SHRIPAD TULJAPURKAR. Population dynamics in variable environments. VII. The demography and evolution of iteroparity, 901
- OWEN-SMITH, NORMAN. See JOHAN T. DU TOIT
- PARKER, GEOFFREY A., DOUGLAS W. MOCK,

- and TIMOTHY C. LAMEY. How selfish should stronger sibs be? 846
- PATTEN, BERNARD C. See MASAHICO HIGASHI
- PIKKOLA, MIRJA. See ERKKI HAUKIOJA
- PILETT, RON. Evaluating direct and indirect effects in ecosystems, 303
- PLUNKETT, GEOFFREY M. See ALEJANDRO LYNCH
- POLLOCK, GREGORY B., and STEVEN W. RISSING. Intraspecific brood raiding, territoriality, and slavery in ants, 61
- POSSINGHAM, HUGH P. The distribution and abundance of resources encountered by a forager, 42
- POWER, JAMES H. Sink or swim: growth dynamics and zooplankton hydro-mechanics, 706
- RABINOWITZ, D. See K. THOMPSON
- RAMSAY, MALCOLM A. See ROBERT L. DUNBRACK
- RAUSHER, MARK D. See LEAH EDELSTEIN-KESHET
- REEVE, HUDSON KERN. The evolution of conspecific acceptance thresholds, 407
- RISSING, STEVEN W. See GREGORY B. POLLOCK
- ROSENQVIST, GUNILLA. See ANDERS BERGLUND
- RØSKAFT, EIVIN. See JAN OVE GJERSHAUG
- RUIZ, ALFREDO. See MAURO SANTOS
- SANTOS, MAURO, ALFREDO RUIZ, and ANTONIO FONTDEVILA. The evolutionary history of *Drosophila buzzatii*. XIII. Random differentiation as a partial explanation of chromosomal variation in a structured natural population, 183
- SCHLICHTING, CARL D., and B. DEVLIN. Male and female reproductive success in the hermaphroditic plant *Phlox drummondii*, 212
- SCHULTZ, DAVID L. See RONALD A. NUSSBAUM
- SCHWAGMEYER, P. L. See D. W. FOLTZ
- SEELEY, THOMAS D. See FRED C. DYER
- SMITH, JAMES N. M., and PETER ARCESE. How fit are floaters? Consequences of alternative territorial behaviors in a nonmigratory sparrow, 830
- SMITH, THOMAS M. See DEAN L. URBAN
- SOMERS, KEITH M. See DONALD A. JACKSON
- SPRUGEL, DOUGLAS G. The relationship of evergreenness, crown architecture, and leaf size, 465
- STEVENS, GEORGE C. The latitudinal gradient in geographical range: how so many species coexist in the tropics, 240
- STEWART, JAMES R. Facultative placentotrophy and the evolution of squamate placentation: quality of eggs and neonates in *Virginia striatula*, 111
- SUGIHARA, GEORGE. How do species divide resources? 458
- SVENSSON, INGRID. See ANDERS BERGLUND
- TALLAMY, DOUGLAS W., and VERA A. KRISCHIK. Variation and function of cucurbitacins in *Cucurbita*: an examination of current hypotheses, 766
- THOMPSON, K., and D. RABINOWITZ. Do big plants have big seeds? 722
- THOMSON, JAMES D. See LAWRENCE D. HARDER
- TOWNSEND, DANIEL S. Sexual selection, natural selection, and a fitness trade-off in a tropical frog with male parental care, 266
- TULJAPURKAR, SHRIPAD. See STEVEN HECHT ORZACK
- URBAN, DEAN L., and THOMAS M. SMITH. Microhabitat pattern and the structure of forest bird communities, 811
- VITT, LAURIE J. See WILLIAM E. COOPER, JR.
- WALLACE, BRUCE. Can "stepping stones" form stairways? 578; Erratum, 924
- WELLER, DONALD E. The interspecific size-density relationship among crowded plant stands and its implications for the $-1/2$ power rule of self-thinning, 20
- WILLIAMS, KIMBERLYN, CHRISTOPHER B. FIELD, and HAROLD A. MOONEY. Relationships among leaf construction cost, leaf longevity, and light environment in rain-forest plants of the genus *Piper*, 198

Alphabetical Table of Content of Titles

- Anti-herbivory chemical defense in plants: a note on the concept of cost. Torbjörn Fagerström, 281
- Behavioral heterochrony and the evolution of birds' helping at the nest: an unselected consequence of communal breeding? Ian G. Jamieson, 394
- Body size, population metabolism, and habitat specialization among large African herbivores. Johan T. du Toit and Norman Owen-Smith, 736
- Brain size and its relation to the rate of metabolism in mammals. Brian K. McNab and John F. Eisenberg, 157
- Can "stepping stones" form stairways? Bruce Wallace, 578; Erratum, 924
- Chromosomal influences on life-history variation along an altitudinal transect in *Drosophila robusta*. William J. Etges, 83
- Coevolution of parental care and egg size. Ronald A. Nussbaum and David L. Schultz, 591
- Coeexistence on a seasonal resource. Joel S. Brown, 168
- A comparative method. Graham Bell, 553
- The cost of tundra plant structures: evaluation of concepts and currencies. F. Stuart Chapin III, 1
- Courtship feeding and clutch size in red-backed shrikes (*Lanius collurio*). Allan Carlson, 454
- The distribution and abundance of resources encountered by a forager. Hugh P. Possingham, 42
- Do big plants have big seeds? K. Thompson and D. Rabinowitz, 722
- Dominance of indirect causality in ecosystems. Masahiko Higashi and Bernard C. Patten, 288
- The ecology of Hawaiian flower-breeding drosophilids. 2. Adult dispersions and reproductive ecology. Jeremy R. Montague, 71
- The effects of inducible plant defenses on herbivore populations. 1. Mobile herbivores in continuous time. Leah Edelstein-Keshet and Mark D. Rausher, 787
- Evaluating direct and indirect effects in ecosystems. Ron Pilette, 303
- The evolutionary dynamics of cytoplasmic male sterility. Steven A. Frank, 345
- The evolutionary history of *Drosophila buzzatii*. XIII. Random differentiation as a partial explanation of chromosomal variation in a structured natural population. Mauro Santos, Alfredo Ruiz, and Antonio Fontdevila, 183
- Evolutionary options for maximizing pollen dispersal of animal-pollinated plants. Lawrence D. Harder and James D. Thomson, 323
- The evolution of conspecific acceptance thresholds. Hudson Kern Reeve, 407
- The evolution of dioecy from distyly: reevaluation of the hypothesis of the loss of long-tongued pollinators. Gayle E. Muenchow and Marcella Grebus, 149
- Evolution of host selection in parasitoids: does the state of the parasitoid matter? Marc Mangel, 688
- The evolution of viviparity in amniote vertebrates: egg retention versus egg size reduction. Robert L. Dunbrack and Malcolm A. Ramsay, 138
- Facultative placentotrophy and the evolution of squamate placentation: quality of eggs and neonates in *Virginia striatula*. James R. Stewart, 111
- The habitat volumes of scarce and ubiquitous plants: a test of the model of environmental control. Mark A. Burgman, 228
- Host-parasite relations and random zero-sum games: the stabilizing effect of strategy diversification. Joel E. Cohen and Charles M. Newman, 533
- How do species divide resources? George Sugihara, 458
- How fit are floaters? Consequences of alternative territorial behaviors in a non-migratory sparrow. James N. M. Smith and Peter Arcese, 830
- How selfish should stronger sibs be? Geoffrey A. Parker, Douglas W. Mock, and Timothy C. Lamey, 846

- Interpretations and comparisons of constants in the species-area relationship: an additional caution. Mark V. Lomolino, 277
- The interspecific size-density relationship among crowded plant stands and its implications for the $-1/2$ power rule of self-thinning. Donald E. Weller, 20
- Intraspecific brood raiding, territoriality, and slavery in ants. Gregory B. Pollock and Steven W. Rissing, 61
- The latitudinal gradient in geographical range: how so many species coexist in the tropics. George C. Stevens, 240
- Life-historical consequences of density-dependent selection in the pitcher-plant mosquito, *Wyeomyia smithii*. William E. Bradshaw and Christina M. Holzapel, 869
- Male and female reproductive success in the hermaphroditic plant *Phlox drummondii*. Carl D. Schlichting and B. Devlin, 212
- Marriage entrapment by "solitary" mothers: a study on male deception by female pied flycatchers. Jan Ove Gjershaug, Torbjörn Järvi, and Eivin Røskoft, 273
- Microhabitat pattern and the structure of forest bird communities. Dean L. Urban and Thomas M. Smith, 811
- A model of cultural evolution of chaffinch song derived with the meme concept. Alejandro Lynch, Geoffrey M. Plunkett, Allan J. Baker, and Peter F. Jenkins, 634
- Monodominant and species-rich forests of the humid tropics: causes for their co-occurrence. Terese B. Hart, John A. Hart, and Peter G. Murphy, 613
- Natural selection in a population of Darwin's finches. B. R. Grant and P. R. Grant, 377
- On the evolution of the dance language. Fred C. Dyer and Thomas D. Seeley, 580; Erratum, 924
- The optimal clutch size of insects when many females oviposit per patch. Anthony R. Ives, 671
- Optimal growth schedule of a perennial plant. Yoh Iwasa and Dan Cohen, 480
- Population differentiation and the correlation among traits at the population level. Charles J. Goodnight, 888
- Population dynamics in variable environments. VII. The demography and evolution of iteroparity. Steven Hecht Orzack and Shripad Tuljapurkar, 901
- Regulation of mate number in fruits of wild radish. Diane L. Marshall and Norman C. Ellstrand, 751
- The relationship of evergreenness, crown architecture, and leaf size. Douglas G. Sprugel, 465
- Relationships among leaf construction cost, leaf longevity, and light environment in rain-forest plants of the genus *Piper*. Kimberlyn Williams, Christopher B. Field, and Harold A. Mooney, 198
- Reproductive success of females limited by males in two pipefish species. Anders Berglund, Gunilla Rosenqvist, and Ingrid Svensson, 506
- Search modes of birds and lizards: evidence for alternative movement patterns. Robert L. McLaughlin, 654
- Seed dispersal by animals: a role in angiosperm diversification? Carlos M. Herrera, 309
- Sex-investment ratios in ants: has female bias been systematically overestimated? J. J. Boomsma, 517
- Sexual dimorphism of head and body size in an iguanid lizard: paradoxical results. William E. Cooper, Jr., and Laurie J. Vitt, 729
- Sexual selection, natural selection, and a fitness trade-off in a tropical frog with male parental care. Daniel S. Townsend, 266
- Similarity coefficients: measures of co-occurrence and association or simply measures of occurrence? Donald A. Jackson, Keith M. Somers, and Harold H. Harvey, 436
- Sink or swim: growth dynamics and zooplankton hydromechanics. James H. Power, 706
- Sperm competition in the thirteen-lined ground squirrel: differential fertilization success under field conditions.

- D. W. Foltz and P. L. Schwagmeyer,
257
- The theory of speciation trends. Verne
Grant, 604
- The variances of island extinction rates.
Ted J. Case, 741
- Variation and function of cucurbitacins in
Cucurbita: an examination of current
hypotheses. Douglas W. Tallamy and
Vera A. Krischik, 766
- Why are twins so rare in *Homo sapiens*?
Erkki Haukioja, Risto Lemmetyinen,
and Mirja Pikkola, 572
